

False Fear

I don't know how this song happened. Before I knew it I was in the zone and pouring my heart out.

This is a demo recorded in my studio

You seemed to be just slightly mental with all your eccentricities

Not an intellectual No stability

Not that I can see Way too much like me

But when I take you in my arms it's all too clear At least from here

How could anyone remove the love that you have placed inside my heart

All the love you've placed inside my heart

Inside My Heart Inside my Heart

You're deep inside my heart

Oh Yeah your deep inside myheart.....
